Personal Information

Name and Surname:	**Tomson Alexander**
Date of Birth:	**1987**
Phone number:	**---**
E-mail:	**jessybriston33@gmail.com**
	programmer

Education

2020 - 2022	**Kiev Private It school** **software developer**

Additional information

I have the ability to concentrate on one task as on many at the same time (divide time and resources to perform given tasks, independently determine the priority of tasks performed). I have the ability on my own to find and assimilate the necessary information in a short period and use and adapt taken knowledge for performing tasks. Furthermore, I have punctuality, responsibility and persistence. For self-studying, I use official documentation, the public code on GitHub, and articles on different internet resources and apply this knowledge in practice in private projects. I am open to learning new technologies. I always try to finish a given task at the promised time.

Skills

Javascript: jQuery, TypeScript

HTML5 / CSS3, Material.ui , Bootstrap

Php- basis

Python
